

VISHAL

Computer Science & Engineering Undergraduate | Full-Stack Developer

+91 9598015714 | vishal9598sharma@gmail.com | linkedin.com/in/vishalsharma714/ | github.com/vishalexplre

PROFESSIONAL SUMMARY

Computer Science and Engineering undergraduate with hands-on experience developing full-stack and AI-powered web applications. Skilled in **C++, Python, JavaScript, React.js, Node.js, Express.js, FastAPI, PostgreSQL, Firebase, REST APIs, and Git/GitHub**. Strong foundation in Data Structures and Algorithms, object-oriented programming, databases, and web development. Seeking software development and full-stack engineering internship opportunities.

EDUCATION

Bachelor of Technology (B.Tech) — Computer Science & Engineering | Panchwati Institute of Engineering and Technology, Meerut, Uttar Pradesh | 2024–2028 | Third Year

TECHNICAL SKILLS

Languages: C, C++, Python, JavaScript

Frontend: HTML5, CSS3, React.js, Vite, Tailwind CSS

Backend: Node.js, Express.js, FastAPI, REST APIs

Databases: PostgreSQL, Firebase, Firestore

Computer Science: Data Structures & Algorithms, OOP, DBMS

Tools & Deployment: Git, GitHub, VS Code, Postman, Netlify, Vercel

Additional: API Integration, Responsive Web Development, Progressive Web Apps, AI/LLM Integration

PROJECTS

Gramseva — GovTech Citizen Communication Platform

React.js, React Native, Node.js, Express.js, PostgreSQL, Tailwind CSS

- Designed a platform concept connecting citizens with Gram Pradhan for complaints, announcements, and local communication.
- Planned separate experiences for Citizens, Gram Pradhan, and Super Admin to support role-based workflows.
- Designed a responsive administration dashboard for managing complaints, announcements, and citizen interactions.
- Planned backend architecture using Node.js, Express.js, PostgreSQL, and REST APIs.

Industrial Product AI

React.js, Vite, Python, FastAPI, PostgreSQL, Ollama

- Developed an AI-powered web application concept for industrial product analysis and intelligent information processing.
- Built a React/Vite frontend integrated with a Python FastAPI backend through REST APIs.
- Worked on backend services for processing product-related data and application workflows.
- Explored local LLM integration using Ollama for AI-assisted application functionality.

Weather Dashboard

React.js, Vite, JavaScript, REST API, Netlify

- Built a responsive weather application using React.js and Vite with external API integration.
- Implemented dynamic retrieval and presentation of weather information based on user input.
- Developed a responsive interface for desktop and mobile devices.
- Deployed the application using Netlify and maintained source code with GitHub.

Personal Developer Portfolio

React.js, Vite, JavaScript, CSS, Framer Motion

- Developed a responsive portfolio website to showcase projects, technical skills, education, and professional profile.
- Built reusable UI components using React.js and structured the application for maintainability.
- Implemented responsive navigation, interactive sections, animations, and modern frontend interfaces.

RELEVANT COURSEWORK

Data Structures & Algorithms • Object-Oriented Programming • Database Management Systems • Web Development • Programming in C/C++

CERTIFICATION

Full Stack Development — Sheriyans Coding School | Coursework covering Full Stack Development, Data Structures & Algorithms, and Generative AI.
